# Whole program

July 2-6, in A615

The Summer School on DFT: Theories and Practical Aspects

July 9-10, in A615

The 3rd OpenMX developer's meeting

July 11-12, in A632

Advanced Lecture Series

# Program

## The Summer School on DFT: Theories and Practical Aspects

### July 2-5

- Lectures in the morning and the part of the afternoon sessions.
- Performing exercise or own problems in the afternoon session
- Discussion session at the end of each day

### July 6

- A lecture in the morning session.
- Presentation about your projects and/or calculations (10 minutes per person)

### July 4

- Banquet in the evening

# On your desk in ISSP

- In addition to the venue of summer school, we will arrange a desk for each participant on the 4th floor. Please check a distributed paper about your room.
- You can keep your belongings in the room, and conduct your exercises there during ISS2018.
- We expect you to develop a new friendship among participants who share the room.

# Administrative issues

The ISS2018 secretaries will contact you later about administrative issue such as

- Key of the room
- Card key of the ISSP building
- Boarding pass
- Payment of accommodation fee
- etc.

# Taking a group photo

We will take group photos before a lunch on July 5.  
Don't miss it.
